TACENS

RADIX V 750W

POWER SUPPLY

Here comes the fifth generation of the worlwide awarded power supplies TACENS Radix, including the latest and most innovative technical specs from the 11 years of research and development of TACENS´s European Technical Team. TACENS Radix V PSUs are a new worldwide reference in eceolgy, efficiency, quality, reliability, low noise and extended lifetime. Stands out their 10 protection systems making setting a new benchmark in security and reliability. TACENS Radix V 750 model is part of the High-end range of in our ATX power supply family. It is designed for being used with High-end systems up to 750W, including up to two PCI-E support for High-end VGA cards. The High-end TACENS Radix V models include antivibration pad for the installation, all the cable black-meshed and an exclusive 14cm fan VENTUS II. The highest technology for extreme users.

- 99% Efficiency Active Power factor correction (APFC) for extremelly stable and efficient power conversion that compensates all fluctuations from the main supply
- Exclusive 140mm TACENS Ventus II fan with revolutionary 15 air-guiding blades and unique FlLUXUS PRO II bearing for more tan 200,000 hrs lifespan and ultra-silent operation (15dB)
- 85+ Eco-design with extreme high-efficiency up to 85% for power saving and extended lifetime
- ErP/EuP compliant for under 1W power consumption in off mode and RoHs manufacturing directive to fit European Green/Ecologic standards
- Powerful dual +12v rails for extremely stable and powerful performance
- The safest PSU with 10 top-security system protections included
- European engineering and internationally tested safety by recognised testing labs
- Full performance during 24/7 operation. Ultra long Lifetime of up to 100,000 hours
- Professional extras included like big antivibration installation pad and black-meshed cables.
